Education

Shri Vishnu Engineering College for Women, Bhimavaram

2023 – 2027 (Expected)

B.Tech in Computer Science — CGPA: 9.42

Skills

Programming Languages: Python, Java, C, JavaScript, SQL

Web Development: React.js, Node.js, Express.js, Flask, FastAPI, REST APIs, HTML, CSS

AI and Generative AI: LLMs, Prompt Engineering, RAG, Gen-AI

Computer Science Fundamentals: Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems

Machine Learning: TensorFlow, Keras, Scikit-learn, XGBoost, OpenCV, NLP, ResNet50

Cloud and Developer Tools : Git/GitHub, Docker, Firebase, Postman, VS Code, Jupyter Notebook, Google Colab

Experience

GDGoC Organizer –

Aug 2025 – Present

Google Developer Groups (GDG) OnCampus, Shri Vishnu

Engineering College for Women

- Led the execution of technical workshops, hackathons, and innovation campaigns for **800+ students**, promoting hands-on learning in Data Structures, Web Development, and AI/ML.
- Collaborated with **GDG India** to organize large-scale technical events, streamline coordination processes, and increase student participation in developer-focused initiatives.

Smart Interviews – DSA Mentor

Jan 2025 – Present

- Selected as **one of 10 mentors** (out of 150 applicants) to lead and guide a cohort of 200+ students.
- Delivered mentorship in **Data Structures and Algorithms** including recursion, graphs, and dynamic programming.
- Conducted **live coding sessions, mock interviews, and contest discussions** to enhance problem solving accuracy.

Projects

MockMate AI

[\[GitHub Repo\]](#)

- Technologies:** React.js, Node.js, Express.js, MongoDB, Google Gemini API, JDoodle API, Face-api.js, Web Speech API
- Developed an AI-powered interview preparation platform leveraging **Google Gemini LLM** to generate role-based and company-specific interview questions and provide automated answer evaluation.
 - Integrated **Generative AI**, speech-to-text, resume analysis, coding assessment, and AI-based proctoring to simulate real-world technical interview experiences.
 - Built a scalable MERN-stack application with secure authentication, performance analytics, interview history, and multilingual coding execution using the JDoodle API.
 - Supporting text and voice-based interview modes with speech-to-text processing.

Poultry Detect

[\[GitHub Repo\]](#)

- Technologies:** Python, Flask, TensorFlow, Keras, ResNet50, OpenCV, NumPy, Hugging Face Spaces
- Built an end to end deep learning web application to classify poultry diseases using transfer learning with **ResNet50**.
 - Trained and fine-tuned the model on the Chicken Disease Kaggle dataset with structured train, validation, test split, achieving 94.4% validation accuracy and 91% test accuracy.
 - Developed a Flask based backend to load the trained model and perform real-time predictions via REST API.

JobSprint

[\[GitHub Repo\]](#)

- Technologies:** PHP, MySQL, HTML, CSS, JavaScript, Adzuna API, Remote API, Arbeitnow API, InfinityFree
- Developed **JobSprint**, a job aggregation platform that consolidates opportunities from multiple job APIs into a unified search interface.
 - Integrated **Adzuna, Remote, and Arbeitnow APIs** to aggregate over **1000+ job listings** with advanced search and filtering capabilities.
 - Built a PHP-based admin dashboard to automate job management, reducing manual updates by **60%**.

Achievements & Certifications

- Awarded **Codess.Cafe** Mentorship among 750+ applicants, leveraging mentorship for skill development in the competitive tech landscape.
- Working on a research project titled **“A Consistency-Confidence Aware Framework for Hallucination Detection and Selective Abstinence in Large Language Models (LLMs)”**, focusing on improving the reliability and trustworthiness of LLM-generated responses.
- Ranked **196** out of **40,986** participants in a **Smart Coder** Program conducted by SmartInterviews.
- Ranked in the **top 3.23%** on **LeetCode** with 1800+ contest rating.
- Selected among the **Top 500** participants in **Meesho ScriptedByHer 2.0** from **36.3K+ registrations**.
- Secured **2nd place** in a college-level coding competition among **176** students (*July 2024*) [\[Certificate\]](#).
- Worked as an AIML intern at SmartBridge for 2 Months [\[Certificate\]](#).
- **Diamond Certificate** as a Smart Coder from **Smart Interviews** for excellence in coding and problem-solving skills.
